

Part 1 Chapter 2. Your Turn!

Check your work

Here's the list of data places I came up with:

Here are a few examples of how this data might be used:

- Social Media
 - Instagram:
 - Instagram sends posts that it thinks I might find interesting.
 - Instagram suggests who I should follow.
- Work
 - HR Records:
 - My next-of-kin details are used in case of emergency

- My salary and other information about me are used to calculate income tax, prepare my paycheck, and pay money into my bank account
- Medical
 - Hospital Records
 - Details of hospital appointments are used to send me reminders.
 - Details and results of tests and used to diagnose conditions.
- Web Service Providers
 - Search History:
 - Web sites I've visited are used to show me advertisements I might be interested in.
